

ASIST

Applied Suicide Intervention Skills Training

ASIST is a two-day in-person workshop facilitated by two knowledgeable and supportive trainers. It features powerful audiovisuals, discussions, and simulations to help attendees learn how to recognize when someone may be thinking about suicide, and how to provide a skilled intervention and develop a safety plan with the person to connect them to further support.

This workshop will increase an individual's willingness, confidence, and capacity to provide suicide first aid.

Register today for this important and impactful training!
